To Whom It May Concern

Dear Sirs,

Ref :- Dar Al Rokham L.L.C.

On projects carried out by Murray & Roberts Contractors (Middle East) L.L.C. in the UAE, the supply and installation of the marble and granite flooring has been executed to our full satisfaction by Dar Al Rokham L.L.C.

Each phase of the Dubai Airport Expansion from Terminal 1 to Terminal 2 including Concourse 3 where Murray & Roberts was involved as the main contractor, the floor finish has been successfully carried out to a very high standard by Dar Al Rokham. The complexity of the floor patterns particularly within Concourse 3 were challenging, Dar Al Rokham demonstrated their expertise to produce a first class product.

Throughout their onsite activities Dar Al Rokham have always worked efficiently to comply with the project programme requirements thereby allowing all projects to meet their agreed completion dates. It was also recorded that Dar Al Rokham have fully met with all Murray & Roberts stringent site safety criteria as well as efficiently closing out any defects issues during the liability periods.

We therefore do not hesitate to recommend Dar Al Rokham for any marble or granite flooring work required to be carried out in the UAE.

Yours faithfully,

For on behalf of Murray & Roberts Contractors (Middle East) LLC

**Colin Pickering
Managing Director**
